DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of claims 1-3, 5, 9, 10, and 13 in the reply filed on 3/20/06 is acknowledged.

Allowable Subject Matter

2. Claims 1-3, 5, 9, 10, and 13 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art of Amamori et al. (U.S. Pat. No. 6,409,209) discloses a gas generator (124), and gas bag (126), a separate central part (136), and a holding device (142) for the central part, where the holding device has a guide means (138) that permits a displacement and delimits the displacement of the central part upon inflation. However, Amamori et al. fails to disclose that the holding device includes a plastically deformable spacer element that is permanently deformed upon movement of the central part upon activation of the gas generator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Frisch discloses a similar gas bag module.
